

Healing is close.

IMatter is Mind Above Matter's school-based mental health program, providing PHP and IOP levels of accessible, group-focused therapeutic care for students **within their school district.**

Integrated access

Regular care without missing academics or activities.

Reduced stigma

Localizing support helps normalize mental health care.

Practical and effective

Enables students to apply coping skills in real time.

Testimonials

"MAM has been a great addition to our district. It ensures our students have a strong, supportive group therapy they can rely on, without falling behind in their schoolwork."

- Jessica Goode, Education Liasion

"Since partnering with iMatter, our families have experienced tremendous benefits. This collaboration has allowed us to remove significant barriers to accessing mental health services for children."

-Sofia Lopez, Director of at Risk Services

"Recognizing the limited local resources and the importance of education, our unique approach ensures students do not have to withdraw from school. They attend classes for the majority of the day and receive intensive, evidence based therapy immediately after."

-Ginger Robinson, Director of Counseling Services

"MAM has provided the greatest known quality of care available to our students. Their professionalism, experience, and convenient on-site location give our families access to high-level care in a safe, familiar environment."

**- Stephanie Cook, Ed.D., LPC
Managing Director of Guidance and Counseling**

"The program partners closely with families, ensuring smooth transitions while continuing to provide educational services during treatment."

- Beth Hemby, Hospital Liasion
